PROFESSIONAL SUMMARY

A Fullstack Developer with over four years of experience in designing, developing, and maintaining robust web applications. Proficient in technologies such as React, Redux, Next.js, and Node.js to create scalable solutions.

SKILLS

Languages: JavaScript (ES6+), TypeScript, Bash

Frontend: React.js, Next.js, Redux, Redux-Saga, Context API, HTML5, CSS3, SCSS, Tailwind CSS, Material-UI, Ant Design, Styled-components

Backend: Node.js, Express.js, REST APIs, Webhooks, Stripe API, Discord API, OpenAI API

Databases: MongoDB (Mongoose), Firebase

DevOps: AWS (S3, EC2), Docker, Jenkins, GitHub Actions, Netlify

Testing: Jest, React Testing Library

Tools: Git, GitHub, Bitbucket, Figma, Swagger, Jira

OS: Linux/Unix, Windows

PROFESSIONAL EXPERIENCE

Rocket Scooter - Houston, United States

Dec 2024 - Present

Fullstack Developer

- Built and launched a web marketplace using Next.js, React, and Ant Design, reaching 5,000+ users and generating over \$30,000 in revenue within two months.
- Integrated Stripe for payments, AWS S3 for content delivery, and Discord API to manage user access based on subscription level.
- Developed REST APIs using Node.js and Express to handle payments, subscriptions, and webhook events from Stripe and Discord.
- Designed and developed seller and admin dashboards, working closely with the CTO and CEO to plan features, timelines, and budgets.
- **Tech Stack:** Next.js, React.js, Redux, Node.js, Express, Stripe, AWS (S3, EC2), Discord API, Ant Design, Material UI, GitHub, Jira

Rocket Scooter - Houston, United States

Oct 2022 - Dec 2024

Frontend Developer

- Rebuilt key UI components using React and TradingView, improving responsiveness and reducing interface lag by 20%.
- Integrated real-time market data using APIs like Polygon and TradingView, and built internal tools to monitor and debug issues faster.
- Worked with the UX team to test and refine features based on user feedback, leading to a 15% increase in satisfaction scores.
- Led the upgrade of core libraries and frontend architecture, reducing technical debt and improving long term code maintainability.
- **Tech Stack:** React.js, Redux, TradingView, Polygon API, Styled-components, AWS, Bitbucket, Jira

DcBits Exchange

Apr 2022 - Oct 2022

Frontend Developer

- Led frontend development of a crypto trading platform using React, Redux-Saga, and Material UI; the platform averaged over \$10K in daily trading volume.
- Integrated custom TradingView charts and webhook functionalities, enabling real time trading updates and improving user retention by 25%.
- Built security features like 2FA, encrypted storage, and access control, following best practices for crypto platforms.
- Led the development of the DcBits mobile app, conducting end to end code review, testing and ensuring 95% crash-free sessions post launch.
- **Tech Stack:** React, Redux-Saga, React Native, Material UI, Docker, GitHub Actions, Formik, Yup, Moment, Lightweight Charts, Webhooks, 2FA, EmailJS, Polygon API

Inventlabs Innovations, Kerala, India

Sep 2020 - Apr 2022

Junior Front End Developer

- Joined a 5-member founding team at a Kerala Startup Mission funded startup to build ShopsApp, a multi vendor eCommerce platform for local retailers and shoppers.
- Contributed across the full product lifecycle from MVP to launch writing scalable UI components using React.js, Context API, and Ant Design.
- Migrated the web app to Next.js, achieving 100% Lighthouse performance scores and improving SEO and page load speed by 45%.
- Reused existing web codebase with Capacitor.js to build a mobile app, cutting development costs by 50% and accelerating delivery.
- Created white-label versions of ShopsApp for 3 B2B clients, including government projects, resulting in a 15% revenue increase.
- Contributed to CeroED, a secondary project focused on carbon footprint tracking, working on frontend features for environmental performance dashboards.
- **Tech Stack:** React.js, Next.js, Context API, Ant Design, SCSS, Capacitor.js, Google Maps API, Stripe, Adobe XD, GitHub, Jira, Asana

EDUCATION

University of West London, London, United Kingdom

MSc Cyber Security.

Visvesvaraya Technological University, Karnataka, India

Bachelor of Engineering, Computer Science.
